Review in SeeMyENC

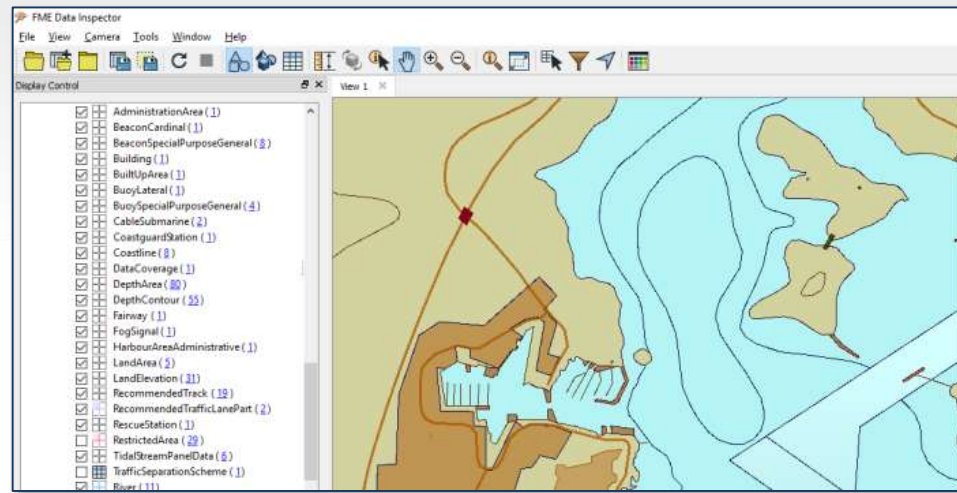

7Cs Analyzer Version 4.1

7Cs Analyzer new Version 4.1

Highlights:

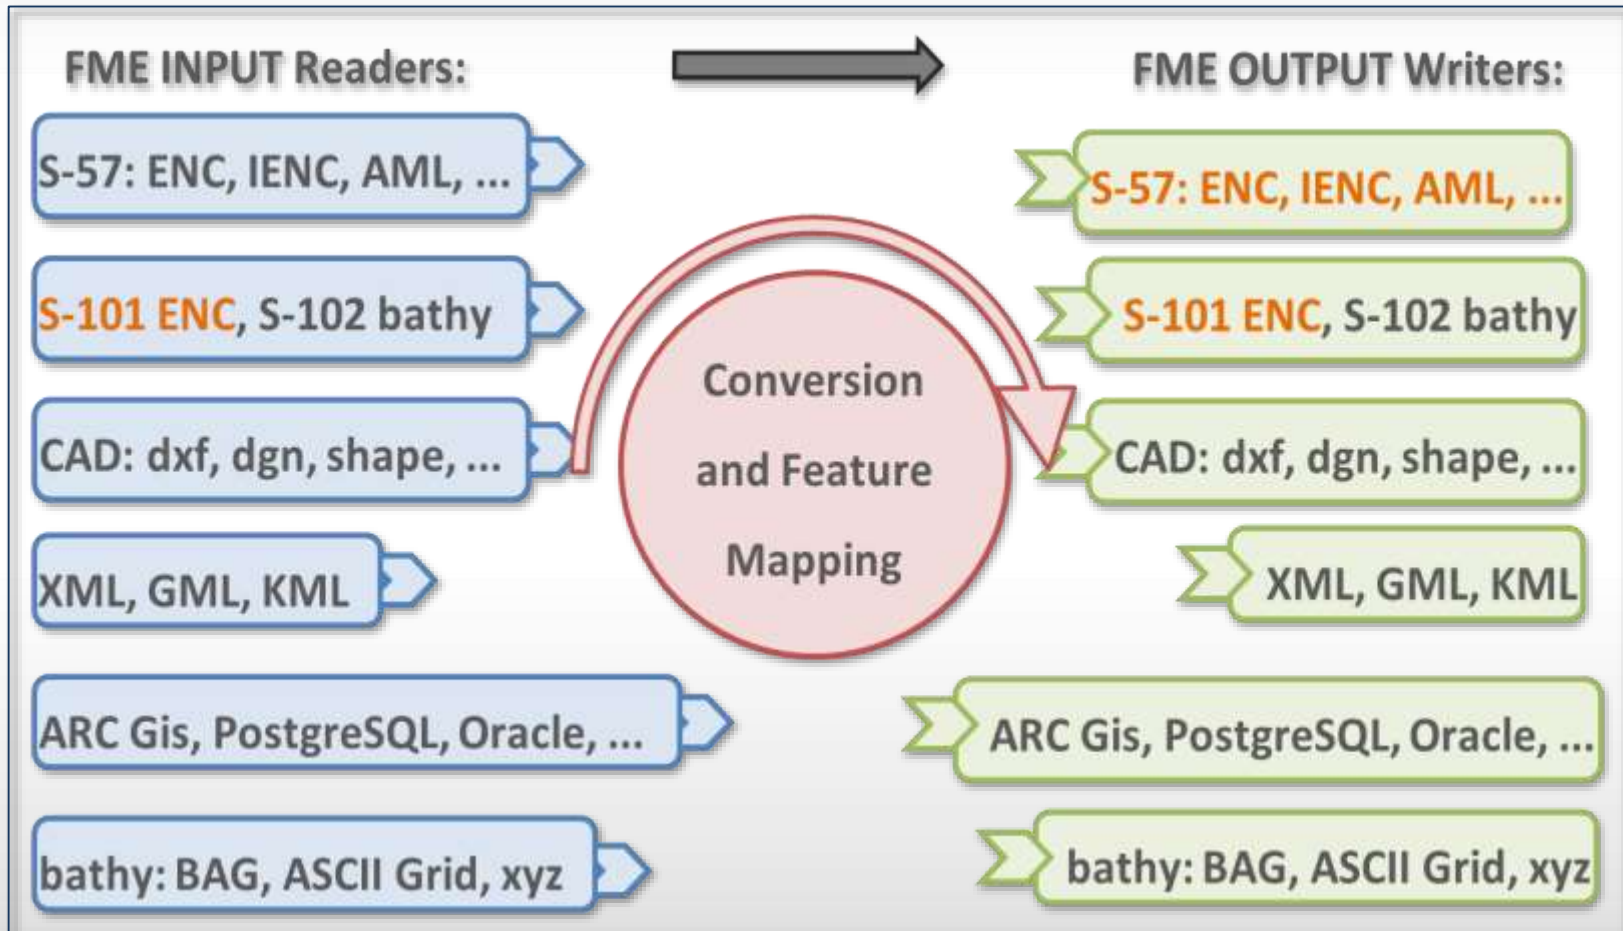

- Planned release: Q1 2020
- Includes AML validation
- User defined custom checks
- Integrates a Custom Checks Wizzard for easy definition of custom checks
- shape export function of validatin results for further use in third party production systems

S-101 Plugins for FME

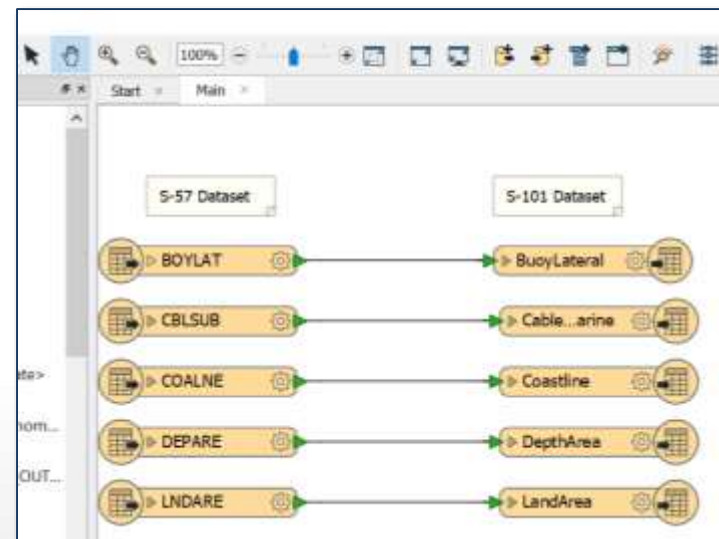

S-101 Plugins for FME

Data conversion with FME

S-101 Plugins for FME

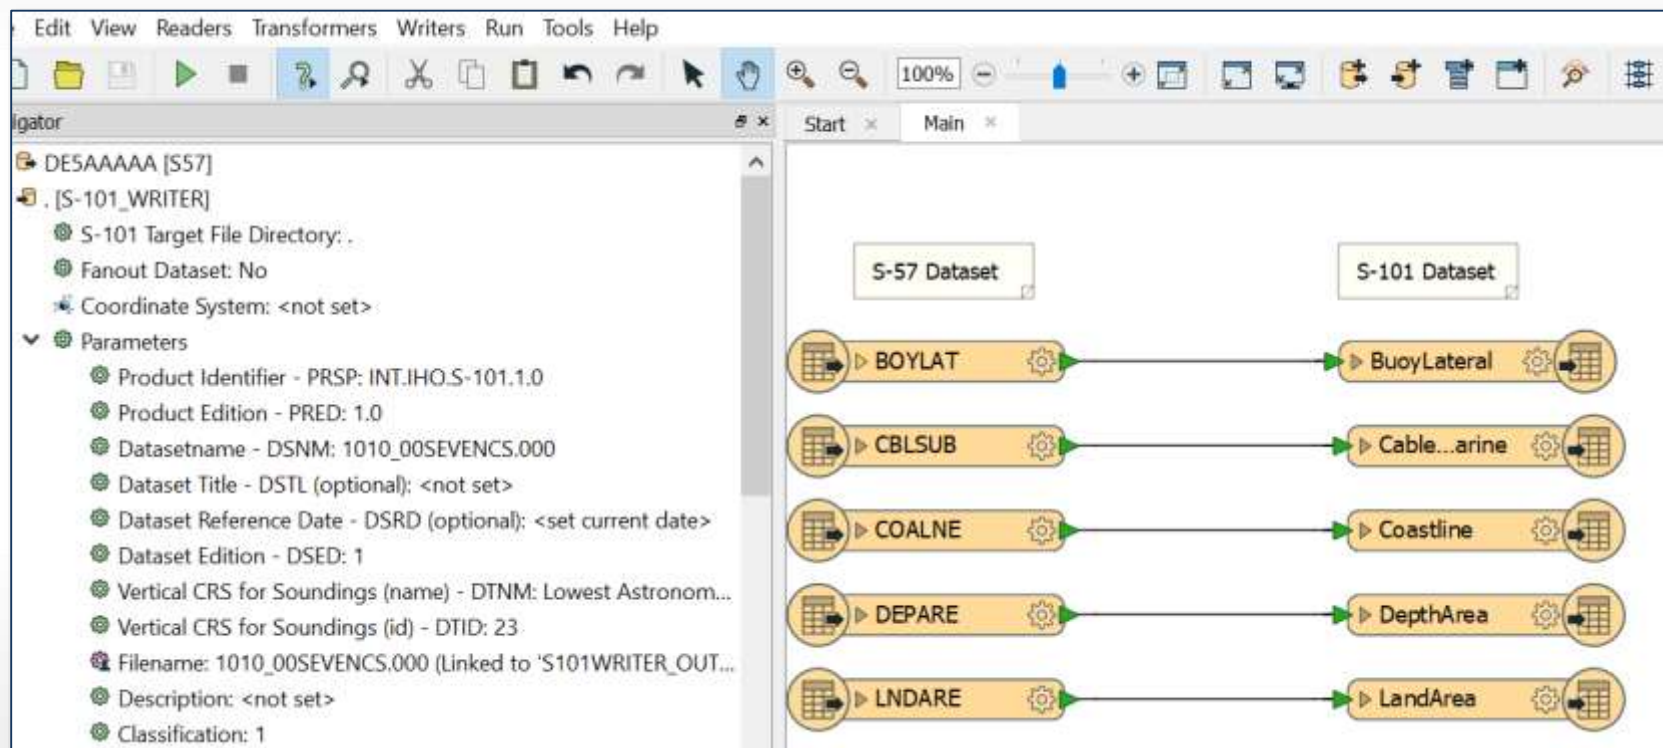

- Import and display of S-101 data
- S-101 data analysis, feature and attribute queries
- Data conversion and processing
- Create S-101 data
- Backwards conversion to S-57
- Creation of testdata
- etc.

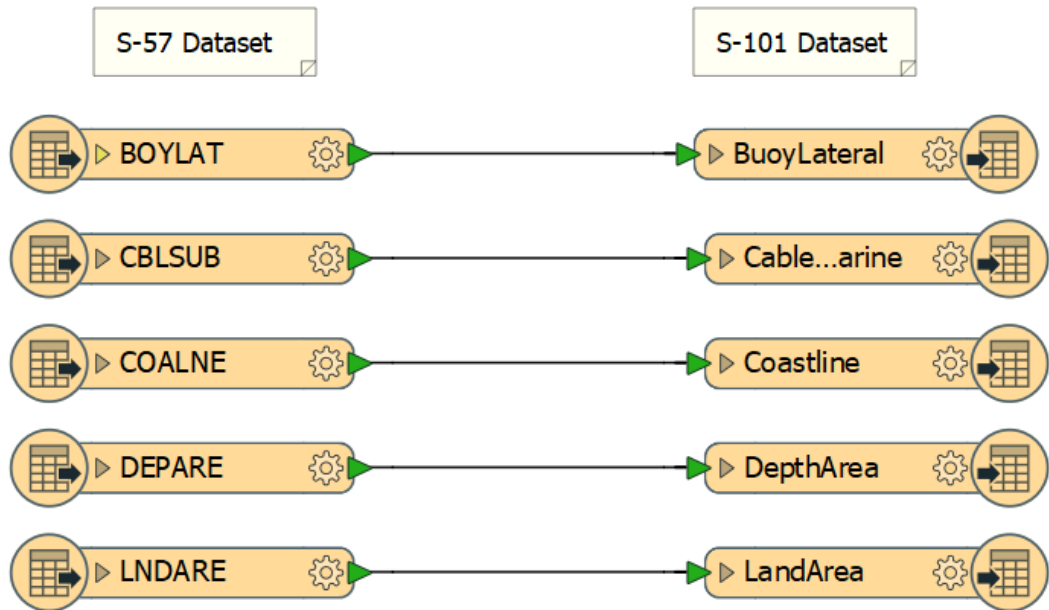

ENC conversion: S-57 to S-101

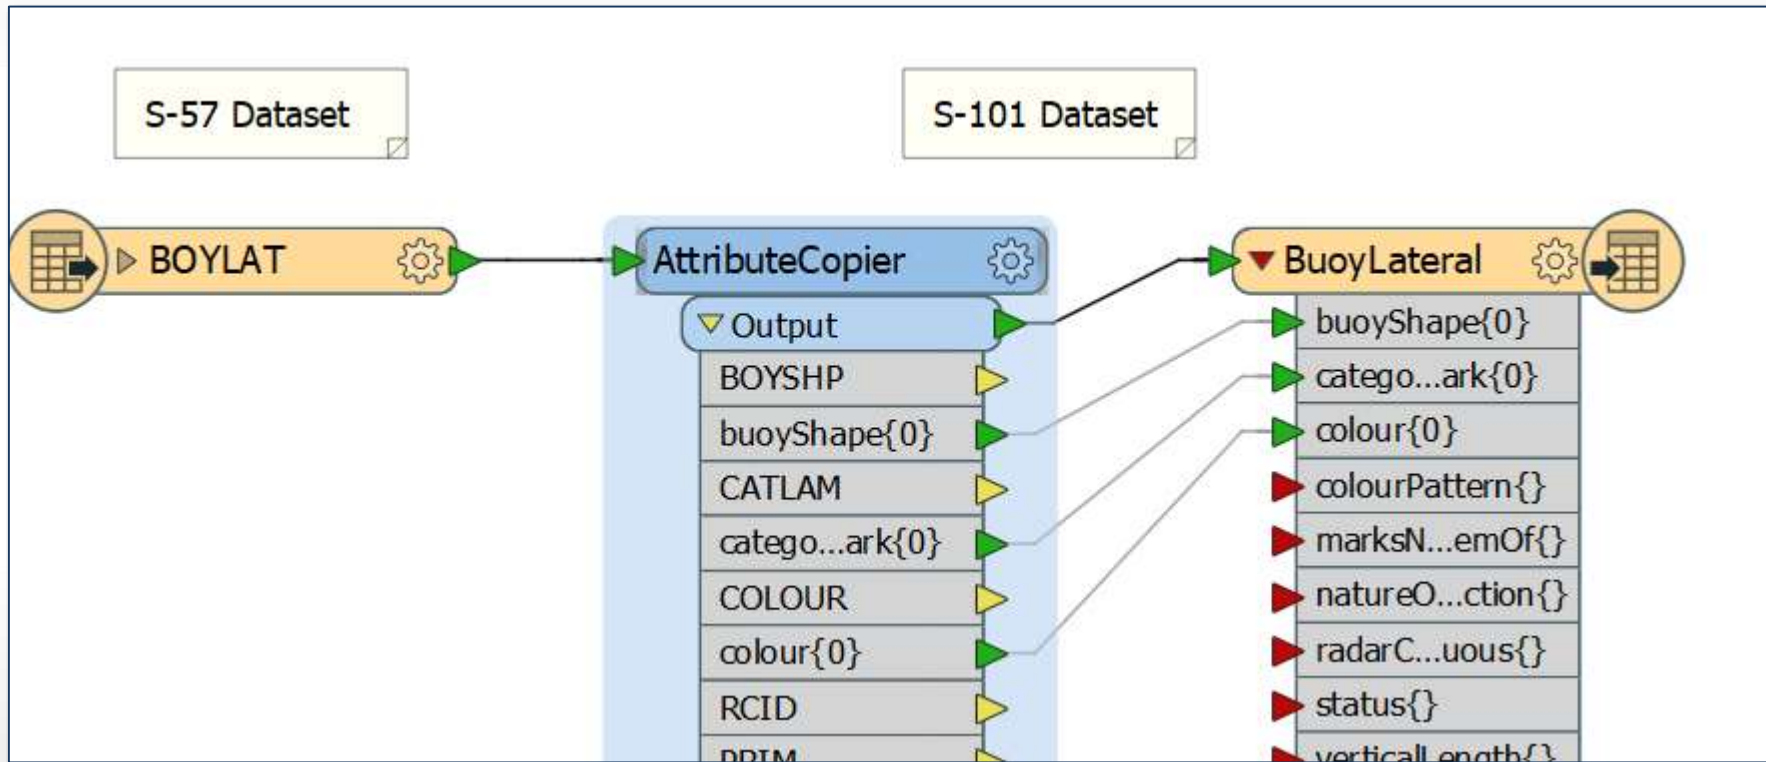

drag and drop configuration of translation workflow

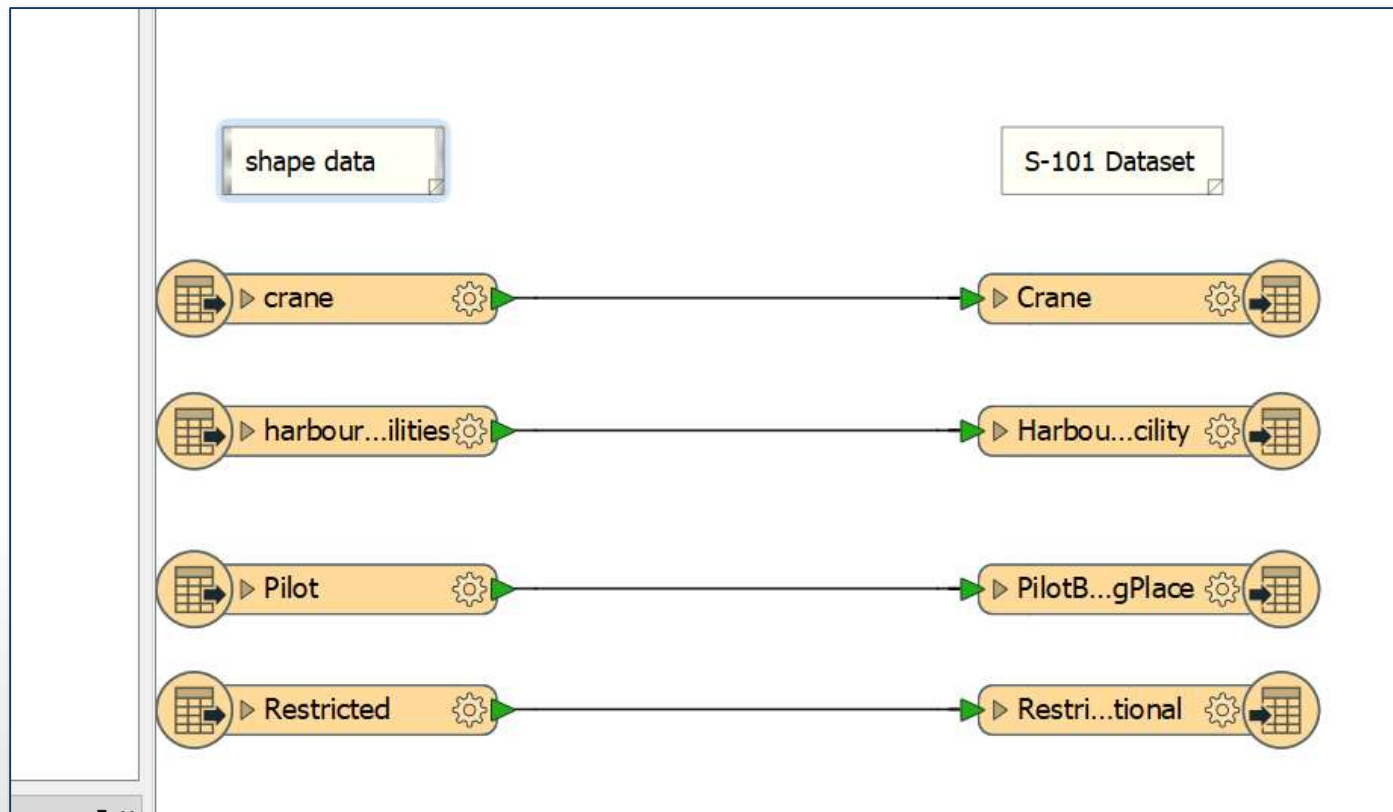

ENC conversion: S-57 to S-101

Feature and attribute mapping

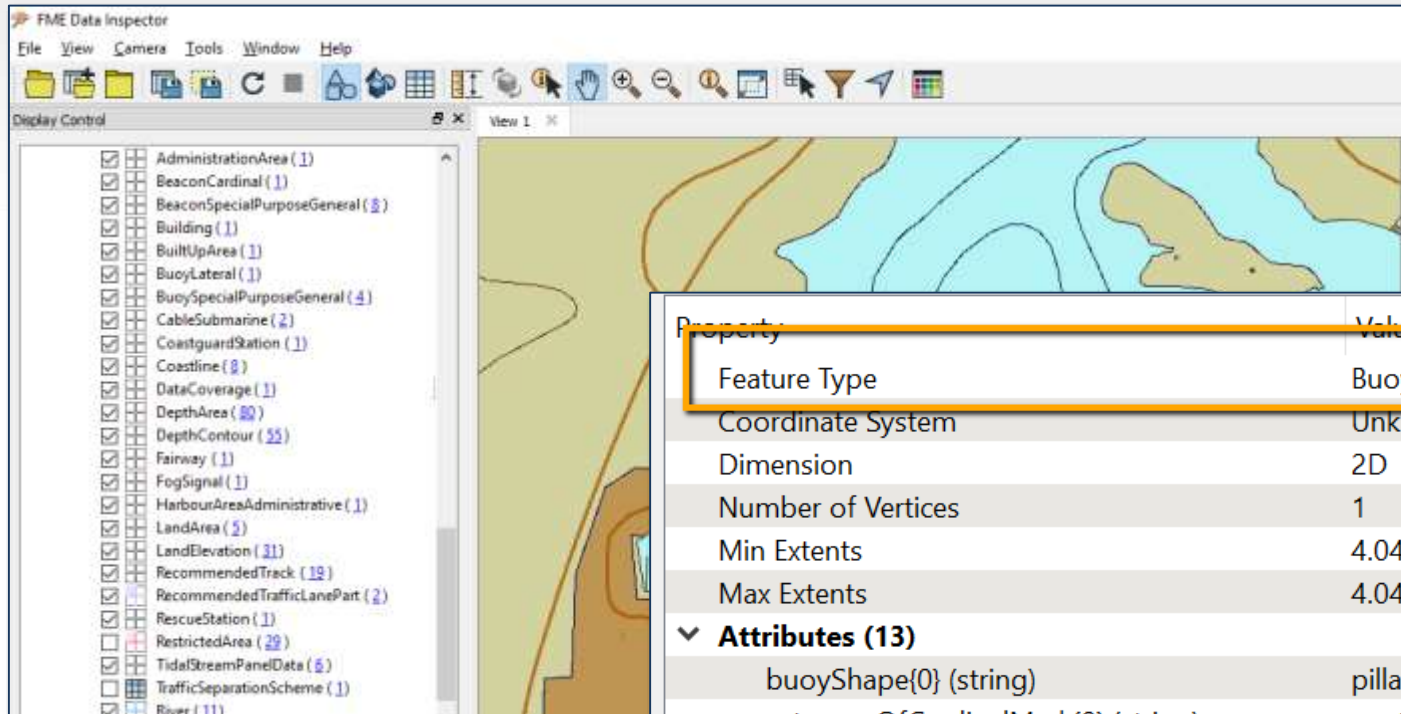

GIS data conversion: shape to S-101

Feature mapping

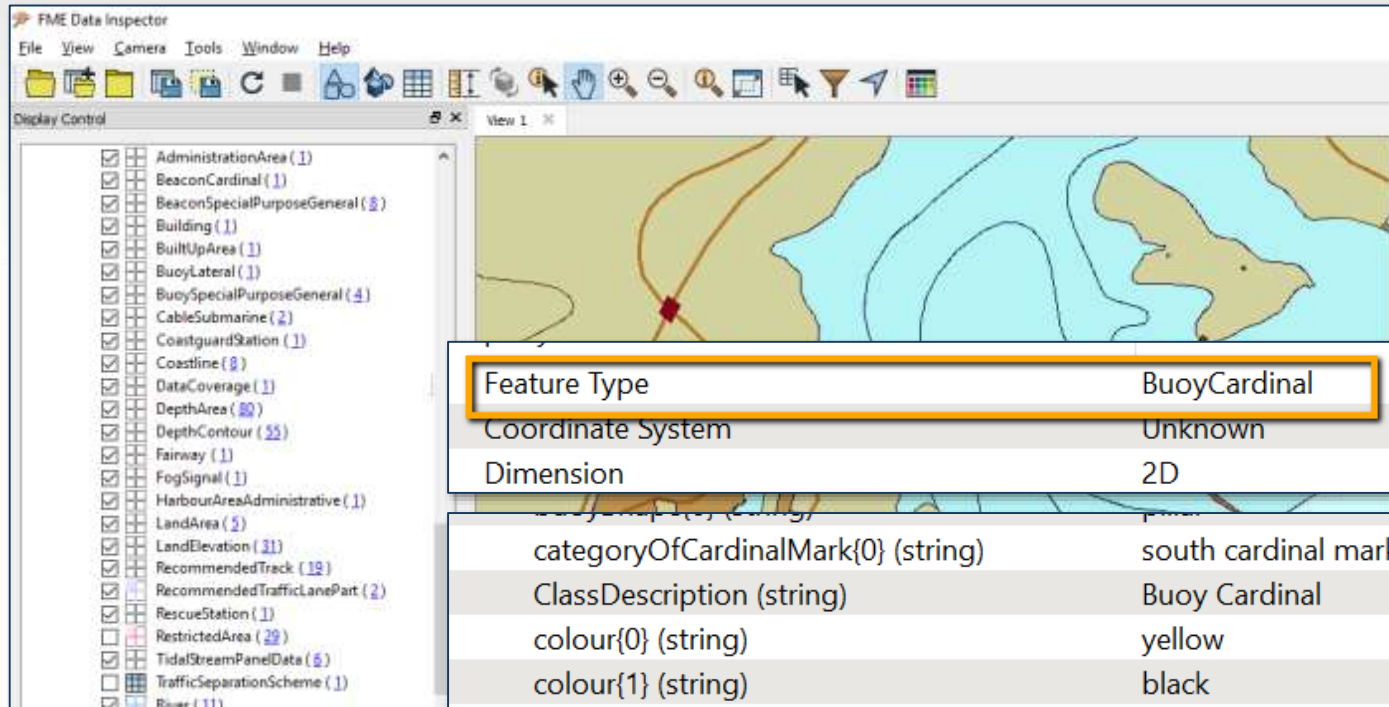

S-101 multiplicity of attributes

| Property | Value |
|------------------------------------|-----------------------|
| Feature Type | BuoyCardinal |
| Coordinate System | Unknown |
| Dimension | 2D |
| Number of Vertices | 1 |
| Min Extents | 4.0435353, 52.4629039 |
| Max Extents | 4.0435353, 52.4629039 |
| ▼ Attributes (13) | |
| buoyShape{0} (string) | pillar |
| categoryOfCardinalMark{0} (string) | south cardinal mark |
| ClassDescription (string) | Buoy Cardinal |
| colour{0} (string) | yellow |
| colour{1} (string) | black |
| colourPattern{0} (string) | horizontal stripes |
| fme_geometry (string) | fme_point |

S-101 complex attributes

Thank you!
