IENC EG in DocBook format

Status quo

- ☺ Revision of IENC EG 2.4 after the IEHG meeting 2017:
    - ☺ The CR's with an impact to the EG are amended
    - ☺ Some bugs (e.g. missing graphics) are solved
    - ☺ A new version arose (**EncodingGuide_24-05-2018.xml**)
- ☺ Out of this version some exports were generated:
    - ☺ **EncodingGuide_23-04-2018.pdf**
    - ☺ **EncodingGuide_24-05-2018.html** (WEB page version)
    - ☺ An ebook export (EncodingGuide-2.0.4.epub) was tried but not finalized (by a lack of demand)

This is all available and can be used.

IENC EG in DocBook format

Future prospects

- Can "IENC EG in DocBook format" be used to import the content in the future DCEG (Data classification and Encoding Guide)?
